

# Border Environmental Health Initiative Study Area

## Surface Geology

Base map: Compiled by integrating geologic unit polygons, lines, and point data from the McAllen-Brownsville (Bureau of Economic Geology, 1976), Matamoros (INEGI, 1982a), Rio Bravo (INEGI, 1982b), Reynosa (INEGI, 1983), and Monclova (INEGI, 1991) 1:250,000-scale quadrangles.

Source: Counties/Municipios layer derived from TNRIS data for the U.S. and INEGI data for Mexico. The study area boundary was determined by the Border Environmental Health Initiative project.
